

# Plantskydd®

**RABBITS • DEER • VOLES  
REPELLENT**

**WETTABLE POWDER CONCENTRATE**

**22 lbs / (10 x 2.2 lb)**

**Ingredients**

**ACTIVE INGREDIENTS:**

Dried Blood.....100% (porcine/bovine)

*Proven Effective & Long Lasting!*

**FORESTRY**

**PROFESSIONAL GROWERS**

**100% Natural. Not Hazardous.**

**Keep out of reach of children.**

**Not harmful to animals when used as directed.**

## Instructions

### Forestry—Landscape—Nursery:

Use a dilution rate of 1.5 to 2 gallons of water for each 2.2 lb bag of *Plantskydd* powder concentrate. Sprays 4000 - 6000 seedlings 1 ft high in the field.

See chart—DILUTION RATES.

**Application Instructions** — Apply a light spray (not dripping wet) to mainly top of seedling/tree/plant. Sprays as a brown color; fades in 24-48 hours. Pine Seedlings: when spraying during bud flush, dilute to 1 lb / 3 gal of water.

### Agriculture:

#### General Information

- *Plantskydd* Deer Repellent is effective in preventing deer browse on growing plants, and lasts for months on dormant plants when used as directed.
- Works by emitting an odor—not unpleasant to applicators.
- Do not apply directly onto edible parts of fruit, vegetables and other food crops.
- Cannot be used as a pre-emergent and is not systemic in function.

#### Directions for SMALLER APPLICATIONS

- Add 3 gallons of water to a 5 gallon bucket.
- Add a medium rate of defoamer to water.
- Using a drill with a paint mixer attachment, set to high speed—pour *Plantskydd* powder concentrate down vortex while mixing.
- Strain mixture using paint strainer or other 50 US mesh strainer.

#### Directions for TANK MIX

- *Plantskydd* is a wettable powder that requires strong agitation.
- Add a medium rate of defoamer to water first.
- Slowly pour *Plantskydd* powder concentrate into water while agitating vigorously. See chart—DILUTION RATES.
- If heavy rain is anticipated, add additional spreader sticker.
- Agitate solution thoroughly before spraying.
- 50 US mesh strainers are ideal.

Note: *Plantskydd* Repellent has demonstrated excellent plant safety and tank mix compatibility. If in doubt, conduct a 'jar test' and spray small area.

DILUTION RATES	Plantskydd	Water	Treatment	Treats
<b>BROADLEAF PLANTS</b>	2.2 lbs	2-6 gal	Spraying	400 - 1200 plants 1 ft high
<b>ROW CROPS</b> —fast vegetative growth phase non-fruit bearing	2.2 lbs	6-10 gal	Spray every 10-14 days	10 - 20 gallons / acre
<b>CONIFERS</b> — winter	2.2 lbs	1.5 gal	Dipping	700 - 800 plants 1 ft high
<b>CONIFERS</b> — new spring growth	2.2 lbs	2 gal	Spraying	400-600 plants 1 ft high
<b>CONIFERS</b> — new spring growth	2.2 lbs	6 gal	Spraying	1200 plants 1 ft high
<b>DECIDUOUS TREES</b> — in leaf	2.2 lbs	6 gal	Spraying	Varies according to species
<b>DECIDUOUS TREES</b> — dormant	2.2 lbs	1 gal	Apply on stems with a paint brush	Varies according to species

## Rainfast in 24 Hours

**Makes 15 to 100+ gallons depending on application**

**Apply on dry plants.**

**DEER / ELK** — spray all plants and leaves until wet but not dripping.

**BUCK RUB** — spray all around tree stem.

**RABBITS & VOLES** — spray lower leaves, including stem down to root collar.

**ORNAMENTALS**—spray mainly leaves of plants—avoid blossoms.

**Always treat new growth** on fast growing plants.

**BULBS**—Dip bulbs in solution. Allow to dry, then plant.

- Test sample plants to determine sensitivity.
- Needles/leaves darken temporarily after treatment —original color returns in a few days.
- Apply at above freezing temperature.
- Do not place treated plants/seedlings in sealed container for more than a few days—unless refrigerated and plants are dry.
- Rinse sprayer, gloves and planting equipment after use.
- If sprayer clogs, rinse in hot water.

### PRECAUTIONARY STATEMENTS:

KEEP OUT OF REACH OF CHILDREN & PETS.

May stain concrete, brick and wood. Do not apply directly on to edible parts of fruit, vegetables, and other food crops. Do not ingest. Wash hands after use. This product may be harmful if swallowed. Avoid contact with eyes. If contact with eyes occurs, immediately flush with plenty of water and seek medical attention.

**PROVEN EFFECTIVE**

**FOR 3+ MONTHS  
overwinter on  
dormant seedlings.**

**Re-apply more  
frequently during  
fast growth stage  
(see table).**

### STORAGE & DISPOSAL

Seal unused powder and store in a cool, dry, dark place inaccessible to children and pets for up to 5 years. Use mixed solution within a few days. Do not contaminate water, food or feed by storage or disposal. Protect from humidity. If spillage occurs, sweep up. Dispose of empty bags as required by municipal or local laws.

## GENERAL INFORMATION

*Plantskydd* powder concentrate is effective in preventing deer browse on growing plants, and lasts for months on dormant plants when used as directed. Works by emitting an odor—not unpleasant to applicators. Do not apply directly onto edible parts of fruit, vegetables and other food crops. Cannot be used as a pre-emergent and is not systemic in function.

## AGRICULTURE

*Plantskydd* is safe for use on young non-bearing fruit & nut trees, grape vines and other crops during the fast vegetative growth phase. Once plant bears fruit, do not apply directly onto edible parts. Professional growers can optimize *Plantskydd* by testing various dilution rates using more water and applying at different frequencies, e.g. every 2-3 weeks depending on growth rate and level of browse pressure. See chart—DILUTION RATES.

## FORESTRY

*Plantskydd's* effectiveness as an animal browse deterrent has been confirmed in operational conditions since 1993 by large forestry companies on millions of conifer and deciduous trees of various species. *Plantskydd's* effectiveness is attributed to its tenacity in sticking to plants, even under severe snow/rainfall. **Lasts 3+ months overwinter on dormant trees.**

## LANDSCAPE & NURSERY

Proven effective in commercial applications, this 100% natural product is now available to nurseries and landscape professionals. Animals avoid treated ornamental shrubs, perennials and annuals before they bite, not after! Always treat new growth. **Effective against deer, rabbits, voles, elk, moose, chipmunks and squirrels.**

## ALSO AVAILABLE:

- Premixed liquid spray-bottles (1.06 quart)
- Premixed liquid jugs (1.3 gal.)
- Granular (3.5 lb, 8 lb, 20 lb)
